■ LNT/DPF Robotic Welding Machine

■ Heat Shield Spot Welding Machine
- Synchronous Welding Machine

- Inlet & Outlet Pipe Robotic Welding Machine
■ Robotic Bracket Welding Machine

■ Catalytic Converter Checking Fixture
■ Catalytic Converter Leak Tester

■ Automatic Palletizing System
■ Conveyor

■ Automatic Loader

Exhaust System Tooling
Robot Grippers & Hangers

- Shell Hanger
- Inlet/Outlet Hanger
- Internal DPF Hangers
- Front Pipe Hanger
Resonator & Inlet/Outlet Pipe Welding Machine

Tailpipe Welding Machine
■ Muffler Assembly Leak Tester

■ Front Pipe Assembly Checking Fixture
Automated Muffler Assembly Line

Welding Jig – Part A

Welding Jig – Part B

Leak Test Jig – Part A

Leak Test Jig – Part B
- Ridge Locking Machine

- Piercing & Burring Machine
■ Vertical Baffle Inserting & Spot Welding Machine

■ Horizontal Baffle Inserting & Spot Welding Machine
Exhaust End Cap Shrinking Machine

Baffle Assembly Welding Machine
Resonator Main Assembly Line

- Double Flanging
- Lock Seaming
- Baffle Inserting
- Double Seaming

Exhaust System Tooling
Resonator Assembly Leak Tester
Sensor Boss Drilling Machine

3-Head End Forming Machine

Expanding and Reducing Heads
■ Manifold End Forming Machine

■ CNC Pipe Bending Machine

Advanced Tooling

Standard Tooling
Front Pipe Welding Machine - Flange OD
Your connection to Korean manufacturing and industrial equipment
